

INFECTION PREVENTION PRODUCTS

In field trials, the IP-Pouch® reduced respiratory infections over 60% compared to the use of plastic bags.

Replaced once per month or PRN, the IP-Pouch® family of products are primarily a replacement technology for plastic bags used for storing reusable nasal cannula, HHN's and other respiratory devices. Plastic bags retain moisture and allow harmful microbes to survive and thrive. These Pouches are made from a breathable moisture wicking material that allows microbes to die naturally.

IPT-2.0: 9.5"X11" (Peel & Stick Tape).....MSRP \$1.99

The IPT-2.0 with Peel & Stick tape can be placed on oxygen concentrators bedside stands etc. and is used for storing reusable nasal cannula, HHN's and other respiratory devices.

IPD-2.0 & 3.0: 9.5"X11" (Drawstrings).....MSRP \$1.99

The IPD-2.0 (black) & 3.0 (blue) Drawstring pouch is used for storing reusable nasal cannula, HHN's and other respiratory devices. The drawstring can be cinched tight and hung on a hook. The IPD-2.0 & 3.0 is also being used used to store personal items that can benefit from being stored in a breathable protective pouch.

IPD-Jumbo 3.0 14"x17" (Drawstring).....MSRP \$2.99

The IPD-Jumbo with Drawstrings is used for storing larger items such as an Ambu-Bag, Stethoscopes, Blood pressure Cuffs & other larger items. The IPD-Jumbo is made from the same breathable wicking material that removes moisture allowing microbes to die naturally. In addition, the IPD-Jumbo can also be used to store personal items that can benefit from being stored in a larger protective pouch.

IPV-2.0 & 3.0: 9.5"X11" (Velcro Straps).....MSRP \$1.99

The IPV-2.0 (black) & 3.0 (blue) with Velcro Straps can be secured to the bedrail and can be easily moved to various other places such as a wheelchair. The IPV-2.0 & 3.0 has a snap button in the top center to partially close the pouch. The IPV is also being used to hold the urine bottle at bedsides.

PIP-2.0 4"X6" (Peel & Stick Tape).....MSRP \$.89

The PIP-2.0 breathable moisture wicking pouch is used to primarily store a toothbrush, but can also be used to store snore guards, night guards etc. The PIP-2.0 is also being used to store a patience "Feeding Tube Syringe". The PIP-2.0 with Peel & Stick tape can adhere to almost any surface.

ADC-2.0 & 3.0: 13"X11" (Velcro Straps).....MSRP \$1.99

Our ADC-2.0 (black) & 3.0 (blue) "LOW BED MODEL" Dignity Cover uses the same breathable moisture wicking material. The Velcro Straps can be cinched up tight or loosened as needed. The current practice of storing the Catheter Drainage bag in a non-breathable thick polyethylene bag allows microbes to survive and thrive in a warm moist environment.

O2-Tags 250 per roll.....MSRP \$19.95

Replaced as needed, the O2-Tag which is 2 inches wide x 3/4 inches high is designed for nurses and others in the medical profession to attach a date & name quickly to oxygen tubing or any other tubing or device where having the date with the name of the person attached is important. Our O2-Tags come in rolls of 250 & were designed by Nurses to ensure quality care.
